EXCHAGE REACHED HIGH-EST POINT IN MOVEMENT.

Some Banks and Firms Earnestly Considering Shipments of Gold in the Near Future.

New York, Nov. 2 -- Movements in the stock market to-day were characterized by the various influences incidental to election week, together with other and perhaps more potent reasons. Sterling exchange reached the highest point in the present movement, some demand bills being sold at \$4.87, which is within a quarter of a cent of the figure at which gold can admittedly be exported profitably.

The accumulation of commercial bills over Sunday was hardly equal to the demand. Paris exchange on London declined. FINANCIAL.
